

CHAU VU

Versatile Software Engineer | Frontend · Design Systems · Data · Backend

Hamburg, Germany · +49 179 4195 394 · chauvu8080@gmail.com

Portfolio: chauvu183.github.io/portfolio-site

SUMMARY

Versatile software engineer who takes on whatever a product needs. Over ~5 years at softfair GmbH and Kuehne + Nagel, I steadily expanded my own scope — from frontend feature work into building the shared design system, integrating AI features, owning data & BI on Databricks, and shipping full-stack across a .NET backend. I move comfortably between roles — engineer, design-system builder, data developer, UX researcher — and pick up new areas fast (I taught myself the Databricks data platform to build the team's analytics). Strong CS foundation, enterprise background at Kuehne + Nagel, and a designer's eye from years of design work.

ROLES I'VE TAKEN ON

- **Frontend Engineer** — Angular / TypeScript features across 5 insurance modules
- **Design-System Builder** — shared, Storybook-documented component library
- **AI / Search Integrator** — semantic vector-search profession finder
- **Data / BI Developer** — Databricks dashboards + product-analytics pipeline
- **Full-Stack Engineer** — .NET print-engine API + Angular frontend
- **UX Researcher** — surveys, interviews, fake-door tests feeding product decisions

TECHNICAL SKILLS

Frontend: Angular (13, 21), TypeScript, RxJS, NgRx Signals, HTML5, CSS / Tailwind, Storybook, Design Tokens
; familiar with React / Next.js

Backend & APIs: .NET / C#, Java / Spring Boot, Node.js (NestJS), Hono, REST, API Gateway

Data & AI: Databricks (Lakeview, SQL, Delta Lake), PostgreSQL, MySQL , product-analytics instrumentation, AI vector-search integration

Quality & Delivery: Cypress, Playwright, Vitest, Sentry, Vim, CI/CD (Jenkins), Docker, OpenShift, Agile / Scrum (PSD I)

Design & Research: Figma, Claude Design, Stich, Design systems, UX research (interviews, surveys, fake-door tests)

PROFESSIONAL EXPERIENCE

softfair GmbH

Software Engineer

Hamburg, Germany

Nov 2023 – Present

Insurance comparison platform; grew from frontend feature work into design systems, data, and backend.

- **Frontend:** redesigned the KFZ eVB search end-to-end (UX, UI, APIs, analytics) — now used by 669 brokers across 38 pools.
- **Design system:** co-designed and built a shared, Storybook-documented component and form library adopted across 5 modules.
- **AI:** built the frontend for an AI semantic vector-search profession finder — ~50k searches by 7,378 brokers across 96 pools.
- **Data / BI:** designed and built a Databricks analytics dashboard (7 pages, 30+ visualizations) and the product-usage tracking behind it (a 6.4M-event pipeline from ~12,900 brokers).
- **Full-stack:** shipped features end-to-end across a .NET/C# print-engine API and its Angular frontend.
- **Modernization & quality:** restructured a flat Angular codebase into a modular, standalone architecture; stabilized flaky Cypress/Playwright E2E suites.

Kuehne + Nagel International AG*Software Engineer***Hamburg, Germany***Mar 2022 – Oct 2023**Data-flow tracking application for a global logistics enterprise.*

- **Developed** new features for an enterprise data-flow tracking application using Java / Spring Boot and PostgreSQL, deployed as containerized microservices on OpenShift with Jenkins CI/CD.
- **Co-developed** an API Gateway providing a secure access point protecting internal (Jupiter) APIs.
- **Integrated** microservices into the deployment pipeline and improved scalability, stability, security, and performance by refactoring legacy code.
- **Analyzed** and implemented an additional filtering capability enabling efficient data search.

RE/SWITCH GmbH*Frontend Developer / UI Designer (Working Student)***Hamburg, Germany***Dec 2019 – Jan 2022*

- **Built** web UIs for an information-distribution platform by customizing the browser-based flow editor Node-RED (Node.js, HTML, CSS, JavaScript).
- **Created** interactive prototypes for a data-distribution and alarm system (Helios Klinik) and implemented management-system UIs (HTML, SCSS, Bootstrap).

Sen Company Limited*Graphic Designer (Working Student / Freelance)***Hanoi, Vietnam***Jun 2016 – 2021*

- **Designed** packaging, posters, and brochures across Adobe Creative Suite for international brands (Lotte, Ottogi).

EDUCATION

Hamburg University of Applied Sciences (HAW Hamburg)*B.Sc. Computer Science***Hamburg, Germany****Arena Multimedia Design Institute***Arena Multimedia Design Program***Hanoi, Vietnam****CERTIFICATIONS**

- Professional Scrum Developer I (Scrum.org)
- Google UX Design Professional Certificate (Google)
- UX & Web Design Master Course (Udemy)
